MEMORANDUM FOR: Director, National Foreign Assessment Center

FROM: Director of Central Intelligence

SUBJECT:

1. A few days ago I went down to the Agency cafeteria for lunch and picked the first person I came across to sit and have lunch with. In the course of our discussion about his work, he indicated he had written a paper on the Russian national character although he is working in the LA Division of the DDO. I commented that from his paper and my discussion with him it sounded as though his interests were much more in the NFAC field.

2. I asked him to send me a copy of his paper which is attached hereto.

3. What I did not know until after I got back to my office is that he has been asked to leave DDO as a part of the FY-78 reduction. You might want to take a look at him and see if he does have some potential for NFAC.
